To Whom It May Concern:

My name is Stephen Erspamer. I am a seventeen-year member of International Brotherhood of Electrical Workers (IBEW) Local 309 and a full time instructor of the Inside Wireman apprenticeship program for over two years. I am writing this letter of recommendation to affirm the choice of working with Day and Night Solar from Collinsville Illinois, is in fact, the correct one.

As they are a National Electrical Contractor Association (NECA) Premier Partner, they exclusively work with only the contractors who hire the trained professionals of IBEW. This means when a project has Day and Night Solar involved, the job is automatically going to include the best, local, trained professionals who install safely to local electrical code and regulations. All IBEW members have oaths and obligations to work as the professionals of the industry in all capacities. Paying for the job to be done correctly, the first time, is worth its weight in gold, when a job is completed without errors and not needing to redo careless mistakes. This is why Day and Night Solar continues to work with us, and why IBEW and NECA continue to support them.

Regards,

Stephen Erspamer, Instructor
